

## Light hoes, scuffles and scrapers

FLORA's professional scuffles have a hardened blade which is screwed to the sturdy shaft. The blade can be removed and replaced.

The knife scuttle has a flexible spring steel blade, so it is very good for use on slightly uneven surfaces.

The kerb cleaner is a special device for communal cleaning. It helps to clean drains, so it prevents dangerous flooding.

## Light hoes, scuffles and scrapers

**Professional beet hoe** For loosening cultivated plants. Galvanised, hardened, exchangeable blade, blade sharpened on one side, PU 10
