

Sunset

Michael Koenig 2007

FLORA 

Windowsills, balustrades and niches are among architecture's picturesque features. FLORA's Sunset and Provence are a family of products specifically designed to create greenery where space is in short supply. These timeless aluminium containers with plastic inserts are more than just sturdy and light in weight – they also give the plants optimal protection against the cold or drying out. Sunset is available as a flower box in three sizes, and Provence is a portable herb box for up to three plants.
