**Soil drill** Robust tool for drilling holes for posts etc. in earthy, clayey or sandy soil. Steel, powder-coated, large sturdy tip, PU 1

Number	Diameter (mm)	Height (cm)
04731/70	70	105
04731/90	90	105
04731/150	150	105

**Post hole digger** Robust tool for drilling holes for poles and masts of different diameters. High-strength steel blades, ground, powder-coated, PU 1

Number	Range (cm)	Height (cm)
04734/200	ø 150 - 200	150
04734/260	ø 190 - 260	225

**Lawn roller** For smoothing lawn, playing fields or sports surfaces, fill with water or sand. Tubular frame, powder-coated, metal screw plug, PU 1

Number	Meas. roller (cm)	Volume (l)	Weight (kg)	Handle height axle cen. (cm)
04858/60	50 × ø 40	60	17.0	104
04858/75	60 × ø 40	75	19.3	114

**Light lawn roller** Ideal for flattening smaller areas and compressing seeded areas. Steel tube frame, powder-coated, rubber plug, PU 1

Number	Meas. roller (cm)	Volume (l)	Weight (kg)	Handle height axle cen. (cm)
04857	45 × ø 30	30	8.0	84

**Turf edger** For separating overhanging grass accumulations on grass edges. Forged, honed blade, steel tube, clear varnished, T-handle, PU 1

Number	Width (cm)
04801	30

**Spiked lawn roller** For loosening smoothed areas during preparation for sowing seeds and for surface aeration of damp lawn surfaces. Tubular frame, powder-coated, PU 1

Number	Meas. W × D (cm)	Roller	Weight (kg)	Handle height (cm)
04800/1	56 × 17	1	8.5	133
04800/2	56 × 44	2	17.5	137
